Mayor Bill Steele and City Council City of Port Colborne

Dear Mayor Steele,

On the first Sunday of May of every year the Canadian Government recognizes the Battle of the Atlantic in services across Canada. Prior to that day, various municipalities recognize Navy Week, which will begin this year on April 28, 2024. The Region of Niagara will be hoisting the White Ensign at Regional Headquarters on that day to fly until May 5th, 2024.

The Royal Canadian Naval Association Niagara is respectfully requesting the privilege of addressing Council at the Council Meeting prior to Navy Week, if possible, to bring home the meaning of the Battle of the Atlantic and its close relationship to the Welland Canal and municipalities along the Canal. We would also request that Council declare the week of April 28th to May 5th as Navy Week, and allow us to hoist the White Ensign and the current Royal Canadian Naval Ensign in King George Memorial Park Clarence Street. We will be partnering with the Legion Branch 56 to help support a water-side memorial service on Sunday May 5, at 1300 hours.

On behalf of the RCNA Niagara Executive and our members, we would like to thank the City of Port Colborne for granting us permission to hold this important memorial service in your community. We are looking forward to it.

Gratefully yours,

#### The Royal Canadian Naval Association-Niagara Region

Five years, eight months and five days was the duration of the longest, largest and most complex battle of the Second World War, commonly known as "The Battle of the Atlantic." Canada lost 2,000 sailors serving in the Royal Canadian Navy, 1,600 merchant mariners, and 752 airmen from the Royal Canadian Air Force. Many of these brave souls and commercial ships originated from the Niagara Region.

The Welland Canal and the St Lawrence Seaway has direct ties to the Battle of the Atlantic, as many merchant marine ships and sailors who sailed through these locks originated from the Great Lakes. They risked their lives in the treacherous convoy that brought essential supplies and ammunition to the front all the way across the Atlantic Ocean.

For the first time in its history, the Royal Canadian Naval Association-Niagara, will be holding a waterside memorial service on Sunday May 5, here in the City of Port Colborne. To mark this occasion, the Royal Canadian Naval Ensign will be raised in King George Memorial Park from Monday April 29 to Sunday May 5 in recognition of Navy Week.

Let us all come together to remember our loved ones and family members who served, and those who continue to serve in the Canadian Armed Forces today, for their courage and their sacrifice.

I, Mayor Bill Steele, do hereby declare April 28 to May 5, Navy Week in the City of Port Colborne.

We will remember them.

## **Eclipse 2024**

Our Chief Executive Officer plans to share some insight on the eclipse and how things unfolded yesterday, but let me thank, on behalf of members of council, our entire team of staff, for pitching in to organize roads, parking, activities, and all to keep our city safe. What a great team effort, in the days leading up to the event, and all day during the event. Staff really came together. I am proud of all of you. Thank you.

We're not always happy when the weatherman, or meteorologist, I should say, gets it right. We all saw and heard in the days leading up to the greatest celestial event of our era that clouds would cover our view of the total eclipse of the sun. The sun poked through a few times yesterday afternoon, enough to see most of the phases of the eclipse.

I watched with my family from Sunset Park near our home.

How lucky were we in Port Colborne to take it all in from our backyards, our parks, our beaches? What an experience it was, what a thrill, to experience totality, that sudden darkness, for almost four minutes. Friends who live in Sugarloaf Place overlooking HH Knoll Lakeview Park said it was awesome to hear the cheering at the total eclipse. People have shared a range of emotions after experiencing the phenomenon. To the thousands who shared the experience with us in Port Colborne, thank you.

Business owners along the canal on West Street have said it was as busy if not busier than Canal Days. That's incredible. Good for them. It's a day we'll remember until the next eclipse, in 2044. It will not be in our backyard next time. We'll have to travel to Alberta for that one.

## **MYAC Spring Fling a success**

The six members of the Mayor's Youth Advisory Committee held their first event Friday evening in the Golden Puck Room at the Vale Centre: a dance for students in Grades 6 to 9.

Their Spring Fling was a great success!

I'm proud of them for all the work they put in to make it happen. They wrote promotional announcements for schools, they designed a poster, they secured sponsorships, they collected prizes from local businesses, they decorated the room, they made playlists for music, they coordinated food and drinks, they recruited volunteers, and they collected 80 pounds of non-perishable food for the Reach out Centre from about 100 guests who attended.

I'm so impressed with this group.

One of the MYAC goals is to raise enough money to sponsor a family at Christmas.

The committee members are already working on their next event: a health and wellness session for students, with tips to manage stress during exam time.

They are a bright group of young people.

On behalf of council, I extend thanks and congratulations to the MYAC team: Sierra Walsh-Fiore, Emma Laur, Jenna Kountouris, Sophia Seca, Maria Gonzales, and Eva Wachel, who was recently awarded Youth Citizen of the Year by the Port Colborne Wainfleet Chamber of Commerce.

One day, these six young people may be seated around this table.

Councillor Hoyle, you stopped by the dance about midway through to see how things were going. Have you anything to add, about the event, or about the MYAC team?

**Subject: 2023 Development Charge Summary** 

To: Council

From: Corporate Services Department

Report Number: 2024-100

Meeting Date: April 23, 2024

#### **Recommendation:**

That Corporate Services Department Report 2024-100 be received for information.

#### **Purpose:**

This report has been prepared to satisfy the reporting requirements of Section 43 of the *Development Charges Act, 1997,* as amended.

# **Background:**

Pursuant to Section 43 of the *Development Charges Act, 1997,* as amended, the Treasurer of a municipality shall each year give the Council a financial statement (Treasurer's Statement) relating to development charge by-laws and reserve funds.

In addition to providing the Treasurer's Statement to Council, the Treasurer's Statement should also be made available to the public, and, if requested, be provided to the Minister of Municipal Affairs and Housing.

#### **Discussion:**

Appendix A, the attached Treasurer's Statement for the period January 1, 2023, to December 31, 2023, was prepared pursuant to Section 43 of the *Development Charges Act, 1997*, as amended.

As previously directed by Council, a new Development Charge study and corresponding by-law is in development. A public session for investors, developers, and engaged

parties has been planned and communicated for May 1, 2024. The open house will take place at City Hall between 2:15 p.m. and 4:00 p.m.

## **Financial Implications:**

Development charges are an important component of the City's long-term financial plan, with the underlying principle of growth paying for growth.

While the Treasurer's Statement in Appendix A highlights the balances and transactional activity for the past year, it is important to note that development charges are still new for the City of Port Colborne, and that the City has been subsidizing growth until January 1, 2024, when development charges were charged at 100%.

The following tables summarize the City's phased-in approach to development charges as per By-law 6835/97/19 and By-law 6835/85/20.

	Year 1	Year 2	Year 3	Year 4	Year 5

Subject: 2024 Property Tax and Storm Sewer By-Law

To: Council

From: Corporate Services Department

Report Number: 2024-101

Meeting Date: April 23, 2024

#### **Recommendation:**

That Corporate Services Department Report 2024-101 be received; and

That the 2024 property tax rates outlined in Appendix A of this report be approved; and

That the 2024 Property Tax Rate By-law attached as Appendix B of this report be approved.

## **Purpose:**

The purpose of this report is to establish the 2024 property tax rates and corresponding by-law.

# **Background:**

The City of Port Colborne (the City) levies property taxes annually through a four-installment model. Property taxes are based on approved budgetary requirements that are identified in the budget process as the annual levy. The 2023 budget was approved on October 24, 2023, by way of report 2023-161.

The City operates in a multi-tier municipal system with the City being the "lower-tier" and Niagara Region being the "upper-tier." In this model, the Niagara Region establishes tax policy, including tax ratios and any discount factors. In addition to billing its own property taxes, the City bills property taxes on behalf of Niagara Region and the Province of Ontario for education purposes. The total assessment for each property class, tax ratios, discount factors, rates, and amounts being levied are included in Appendix A.

Local property tax rates are established through by-law in accordance with Section 312 of the *Municipal Act, 2001*, as amended.

Amounts raised by way of a special levy for the Downtown Development Board (DBIA) and the Main Street Gateway (MSBIA) are done so in accordance with Section 208 (1) of the *Municipal Act*, 2001, as amended.

#### **Discussion:**

The combined residential property tax rate, which includes the City, Niagara Region, and Education, are summarized as follows:

	2024	2023	\$	%	Proporation	Impact
City	0.01079278	0.01027777	0.00051501	5.01%	52.95%	2.65%
Niagara Region	0.00666111	0.00623692	0.00042419			
Niagara Region: Waste	0.00095517	0.00098660	-0.00003143			
Management	0.00095517	0.00098000	-0.00005145			
Niagara Region: Transit	0.00044362	0.00041580	0.00002782			
Total Niagara Region	0.00805990	0.00763932	0.00042058	5.51%	39.54%	2.17%
Education	0.00153000	0.00153000	0.00000000	0.00%	7.51%	0.000%
						•
Total	0.02038268	0.01944709	0.00093559	4.82%	100.00%	4.82%

The City's year over year increase on a blended property tax basis is 2.65% (5.01% x 52.95% which is the City's portion of the combined tax rate). This compares to 2.90% (1.25% estimated on operations and 1.65% estimated on capital) during the budget process.

Going forward, the proportion of residential property tax paid to the City, Niagara Region, and Education changes as follows:

• City: 52.95% (vs 52.85% in 2023)

Niagara Region: 39.54% (vs 39.28% in 2023)

• Education: 7.51% (vs 7.87% in 2023)

The impact on the blended property tax rates on the average (avg.) residential, commercial, and industrial property in the City is as follows:

	CVA	2024	2023	\$	%
Avg. Residential	\$214,435	\$4,371	\$4,170	\$201	4.82%
Avg. Commercial	\$334,090	\$13,868	\$13,325	\$543	4.08%
Avg. Industrial	\$931,835	\$54,403	\$52,110	\$2,293	4.40%

The residential property average above represents the average of all residential properties in the City, including waterfront properties.

The property sample for the commercial and industrial class does not include larger industrial, shopping centre, office buildings, parking lots, or subclass properties. Rates for all property classes are included in Appendix A.

The average commercial and industrial property tax change highlighted above are slightly lower than the residential change. Factors that can impact a difference include changes in current value assessment (CVA) of commercial and industrial properties, tax shifts, and tax policy approved at the Niagara Region or the Province. There was no change in the education rate on residential, commercial, and industrial properties this year.

Council approved the storm sewer rates by way of Report 2023-165 on November 28, 2023, and these rates are included in the 2024 Property Tax Rates By-law as Schedule B to the By-law.

Incorporated in the 2024 Property Tax Rates By-law are the rates associated with the contributions to the DBIA and the MSBIA.

The final tax due dates for all classes are recommended as July 19 and September 27, 2024. The recommended July date will allow staff to manage workloads between the third instalment and Canal Days. The September date is recommended to move from the September 30<sup>th</sup>, which became the Truth and Reconciliation Day in 2021.

## **Financial Implications:**

The proposed tax rates form the basis to fund the City's approved 2024 budget.

# **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillar(s) of the strategic plan:

- Environment and Climate Change
- Welcoming, Livable, Healthy Community

Subject: Acquisition of Unowned of Knoll Street Road End

To: Council

From: Office of the Chief Administrative Officer

Report Number: 2024-61

Meeting Date: April 23, 2024

#### **Recommendation:**

That Chief Administrative Officer Report 2024-61 be received; and

That the Manager of Strategic Initiatives be directed to work with the City Solicitor on the acquisition of the unowned Knoll Street road-end; and

That the Mayor and Acting City Clerk be authorized to sign all necessary documents.

## **Purpose:**

The purpose of this report is to seek Council approval to bring an application to the Superior Court of Justice for adverse possession of the unowned road end at the north end of Knoll Street PIN 64140-0038, legally described as PT LT 30 CON 2 Humberstone; Port Colborne, as shown in Appendix A.

# **Background:**

The Knoll Street road-end was brought to the attention of the Economic Development and Tourism Services Division (EDTS) by the Public Works Department as a potential future building lot. The Niagara Region Public Works Department also identified this parcel as a potential property for a future pumping station that is required in the north end of Port Colborne to support increased water and wastewater capacity and accommodate anticipated residential growth.

The City's Finance Division and the Municipal Property Assessment Corporation (MPAC) determined that this property was an unowned property that does not generate any tax revenue for the City. The property is zoned Fourth Density Residential, which is

the highest density zoning in Port Colborne. The size of the parcel is approximately 21 metres wide by 117 metres deep.

#### **Discussion:**

The City Solicitor has recommended that a claim of adverse possession should be brought forward to the Superior Court of Justice (the Court). The City Solicitor would ask the court to declare that the City was the lawful owner of these lands based on the City's exclusive use and possession of these lands for a minimum of a ten-year period prior to the lands' conversion to the Land Titles System. In addition, the Court would be asked to direct the Land Registrar to change the owner of the lands to the City.

The City has used this property in the past and evidence would be submitted to support the City's exclusive use and possession of the land.

Moving forward with the acquisition of this property, and having ownership, will prepare the City for future water wastewater servicing needs as the City continues to grow. Once the Niagara Region has completed an Environmental Assessment (EA) for, wastewater capacity in Port Colborne, the City will be informed as to whether this property is the ideal property for the new pumping station. During the EA process, other sites could be identified. If the property is not required for a pumping station, it can be declared surplus and sold for residential development.

#### Internal Consultations:

The EDTS team has consulted with the Finance Division and Public Works and there is a consensus that this is a parcel that should be in possession of the City. The City would be able to make best use of the property to benefit the City and its future.

# **Financial Implications:**

Legal costs will be incurred for the City Solicitor to file the application with the Court, and with the Land Registry Office if the judgement is favourable to the City. These costs would be funded from the Economic Development Land Reserve Account.

# **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillars of the strategic plan:

Welcoming, Livable, Healthy Community

- Economic Prosperity
- Increased Housing Options
- Sustainable and Resilient Infrastructure

## **Conclusion:**

The Knoll Street road-end, as shown in Appendix A, has been identified as an unowned property in the City. The Public Works Department and Niagara Region Public Works have identified it as being of future benefit to assist the City in meeting the servicing needs of future residential growth. EDTS staff are seeking Council direction to work with the City Solicitor to acquire the property through a court application claiming adverse possession.

**Subject: Memorandum of Understanding with the St. Lawrence** 

**Seaway Management Corporation** 

To: Council

From: Office of the Chief Administrative Officer

Report Number: 2024-49

Meeting Date: April 23, 2024

#### **Recommendation:**

That Chief Administrative Officer Report 2024-49 be received; and

That Council approve the By-law attached as Appendix A, being a By-law to Authorize Entering into a Memorandum of Understanding with the St. Lawrence Seaway Management Corporation Regarding the Installation of Artwork on St. Lawrence Seaway Management Corporation Property; and

That the Mayor and Acting City Clerk be authorized to sign the Memorandum of Understanding with the St. Lawrence Seaway Management Corporation attached as Appendix A.

# Purpose:

The purpose of this report is to inform Council of an initiative designed to beautify parts of Port Colborne with urban art and seek Council approval to enter into a Memorandum of Understanding (MOU) with the St. Lawrence Seaway Management Corporation (SLSMC) to complete this project on Seaway buildings.

# Background:

Economic Development staff have been searching for ways to beautify and visually enhance the City, especially in the main arteries and entrances to the City, to create welcoming public spaces, empower young artists to showcase their talent, and to create something intriguing for the community.

The Vacancy Mural Pilot Project is a proposed initiative which will focus on connecting local artists and vacant property owners to create temporary murals on SLSMC managed infrastructure facades. As no budget was allocated for contracting an artist, staff reached out to see if the heads of high school art departments would support this initiative, which was met with a favourable response.

City staff from the Economic Development, By-law, and Fire Divisions met to discuss a Vacancy Initiative that would allow the City to beautify some of the boarded-up buildings to brighten up the areas and foster community pride.

City staff approached the SLSMC in April 2023 to gauge their interest and discuss the process the City would need to follow to bring improvements to the properties and structures they own. In November 2023, the SLSMC provided guidance on the process in early January of 2024 for a pilot project.

#### **Discussion:**

The project will beautify and animate the bricked up and boarded up windows on buildings at the Main Street Lift Bridge and along Welland Street.

The By-law Division has a Vacant Properties Master List that includes approximately twenty-five (25) properties. The City's By-Law Division works with owners of vacant properties to board up the properties through voluntary compliance. If property owners do not comply, a By-law Officer may issue an order that could result in the work being completed at the owner's expense.

Buildings on Seaway property do not fall under the City's purview, however a number of buildings on Seaway property currently appear boarded up and uninviting. These are in prominent locations entering the City and along Main Street and Welland Street.

The SLSMC has provided the MOU attached as Appendix A for Council approval, with the goal of having the artwork installed in the spring of 2024. Lakeshore Catholic Secondary School is currently mocking up a mural for a SLSMC property.

#### Internal Consultations:

Economic Development consulted with By-law Division, Fire Department, and Clerks' Division.

## **Financial Implications:**

The City is supplying the materials at a cost of between \$500 and \$750 for the pilot program from the Economic Development and Tourism Services Division budget. The Seaway will be installing the artwork once it has been provided.

## **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillars of the strategic plan:

Welcoming, Livable, Healthy Community

#### **Conclusion:**

Staff recommend that Council approve authorizing the Mayor and Acting City Clerk to sign the SLSMC MOU for a City beautification project for SLSMC properties.

**Corporation of the City of Port Colborne** 

Subject: Installation of Regional RWIS equipment on City property

To: Council

From: Office of the Chief Administrative Officer

Report Number: 2024-76

Meeting Date: April 23, 2024

#### **Recommendation:**

That Chief Administrative Officer Report 2024-76 be received; and

That Council approve the By-law attached as Appendix A, being a By-law to Authorize Entering into an Agreement with the Niagara Region for the installation of a Road Weather Information System unit on City property; and

That the Mayor and Acting City Clerk be authorized to execute the necessary Encroachment and License Agreement with the Niagara Region to complete the relocation of the Road Weather Information System Equipment onto City of Port Colborne property.

## Purpose:

The purpose of this report is to inform Council of the request of the Niagara Region to relocate Road Weather Information Systems (RWIS) equipment (including power source) onto City of Port Colborne lands and seek Council approval to enter into an agreement with the Niagara Region for this purpose.

# **Background:**

The Niagara Region has requested the City of Port Colborne's assistance in relocating their RWIS equipment, including a power source, on the City's Operations Centre building.

Adverse weather conditions have a major impact to the travelling public and commerce each year. Heavy rain and flooding, snow and ice, fog, high winds, and more, all influence traffic flow, driving conditions, and public safety.

Road Weather Information Systems (RWIS) provide real-time information about the weather and roadway conditions. Continuously updated data is used to help operations and maintenance personnel stay informed about what is happening on the roadways so they can make timely decisions and take proactive measures to reduce the risks and impacts of winter road weather conditions.

#### **Discussion:**

The relocation of the Regional RWIS equipment has no negative impact on City operations or the City Operations Centre building. Public Works staff have indicated that this will provide the City with a better weather report three (3) times per day.

#### **Internal Consultations:**

The EDTS team consulted with Public Works who are supportive of this arrangement. The Clerks Division provided procedural advice on the agreement.

## **Financial Implications:**

There are no financial implications, as all costs including electrical costs will be borne by the Niagara Region.

# **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillars of the strategic plan:

- Welcoming, Livable, Healthy Community
- Sustainable and Resilient Infrastructure

#### **Conclusion:**

That Council approve the staff recommendation to authorize the Mayor and Acting City Clerk to sign the Niagara Region Encroachment and License Agreement to complete the relocation of the Road Weather Information Systems equipment onto the City's Operations Centre building.

# Schedule "A" Illustration of Encroachment Area

Subject: City Signage Strategy – Parks and Cemetery Sign

Replacements

To: Council

From: Public Works Department

Report Number: 2024-96

Meeting Date: April 23, 2024

#### **Recommendation:**

That Public Works Department Report 2024-96 be received; and

That Council approve the transfer of \$91,953 from the capital contingency reserve and \$80,847 from the over/short reserve to the City Signage budget.

# Purpose:

The purpose of this report is to obtain Council's support for the additional funding required to remove and replace park and cemetery signs.

# **Background:**

Council approved the City Signage Strategy through Report 2022-141, which included a phased approach over a three-year period. Funding for the project was approved through the 2022 capital budget process in the amount of \$150,000. The initial year one phase focused on the replacement of park and cemetery signage.

To facilitate this initiative, key tasks were required including soil testing at various locations, securing building permits for all locations, and stamped engineering drawings to ensure sign foundations and structures were designed and constructed correctly.

Staff retained qualified engineering services to complete the required geotechnical study which was finalized in October 2023. Soil sampling and testing were completed at H.H. Knoll Park, Maple Park, and Hawthorne Heights Park, revealing varying ground conditions including bedrock. Engineering services were also retained to complete structural design drawings.

In August 2023, quotes to complete the manufacturing and fabrication of the new signs were obtained. Signs were manufactured and delivered to the City's Operations Center in February 2024.

It should also be noted that three locations fell within shared jurisdictions with the Ministry of Transportation (MTO) and required additional permits.

#### **Discussion:**

In February 2024, staff issued a Request for Quotation (RFQ) for contractor services to remove, dispose of, and install 36 park and cemetery signs in alignment with the City's signage strategy. The RFQ closed on March 21, 2024, and 8 submissions were received.

To complete the project staff have identified a budget of \$323,477 is required. Council had previously approved \$150,677; therefore, to complete this project, a budget adjustment of \$172,800 is required.

As per the Purchasing Policy, when a project is likely to be 20% more costly than the approved budget, Council must approve the additional funding. Staff propose that Council approve funding the additional \$172,800 from the capital contingency reserve with the remainder coming from the over/short reserve. The over/short reserve is the result of staff completing previously approved projects.

The capital contingency reserve currently has \$91,953. The over/short reserve is the result of staff completing previously approved projects and closing the projects out under budget, and the reserve currently has \$83,000.

The approval of the additional funding will allow the completion of the first phase of the City Signage Strategy. The second phase includes various signs such as directional, historical, non-regulatory street signs, banners, flags on City light poles, and trail signage. Staff are reviewing the second phase of the strategy and will report back to Council with estimated costs.

#### **Internal Consultations:**

The sign strategy included the support from the City's Communications Division and ongoing collaboration with the Building Division to ensure the construction and installation of the signs are completed in accordance with current standards.

## **Financial Implications:**

Staff propose the budget adjustment of \$172,800 be funded and transferred from the contingency reserve (\$91,953) and the over/short reserve (\$80,847). The remaining balance in the contingency reserve will be zero and the remaining balance in the over/short reserve will be \$2,153.

## **Public Engagement:**

The City's new logo and branding included public consultation prior to implementation. The request for quotation for the sign replacement project was advertised on Bids and Tenders and made available to the public.

## **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillar(s) of the strategic plan:

- Welcoming, Livable, Healthy Community
- Sustainable and Resilient Infrastructure

#### **Conclusion:**

Through the approval of this report staff will have the necessary resources to ensure all 36 City Park and Cemetery signs are replaced following the City's Sign Strategy.

Respectfully submitted,

Eliza Durant, Project Manager 905-228-8130 Eliza.durant@portcolborne.ca

**Subject: Bearss Drain – Appointment of Engineer** 

To: Council

From: Public Works Department

Report Number: 2024-80

Meeting Date: April 23, 2024

#### **Recommendation:**

That Public Works Department Report 2024-80 be received; and

That Council approve the by-law attached as Appendix C, being a By-Law to Authorize Entering into an Engineering Agreement with Spriet Associated Architects & Engineers for the Bearss Municipal Drain, to complete the required engineer report for the Bearss Drain under Section 76 of the *Drainage Act* for the estimated cost of \$15,000.

## **Purpose:**

The purpose of this report is to obtain Council's approval for the appointment of a qualified engineer to prepare an engineer's report that includes revised assessment schedules of the Bearss Municipal Drain report and necessary actions required under the *Drainage Act*.

# **Background:**

On September 15, 1997, Council adopted the most recent engineer's report for the Bearss Municipal Drain by Bylaw 3429/11/97, being a by-law to provide for drainage works in the City of Port Colborne in the Regional Municipality of Niagara Bearss Drain and William Michael Drain.

In 2007, a new engineer's report for the neighbouring watershed of the Bearss Drain West Branch West was completed and adopted. While completing field investigations for the 2007 report, the engineer noted a change in the watershed limit including the installation of a catch basin and linear pipe system to convey water from the east side of Silver Bay Road to the west side. The change necessitates the revision and updating of assessment schedules of the original 1997 report.

#### **Discussion:**

Since the adoption of both the Bearss Municipal Drain and the addition of the Bearss Drain West Branch West, some properties were assessed and included in both drain reports. The affected parcels are located at the southeast end of Silver Bay Road and along Firelane 9, as depicted in Appendix A and B.

In the fall of 2023, staff received a request from the residents being assessed by both reports to be removed from one of the two assessment schedules, and that the reports be updated to reflect actual watershed limits.

The appointment of Spriet Associates Engineers and Architects will allow them to complete a thorough investigation of the drainage area to confirm current drainage patterns. This exercise will verify the current state of the drainage system and ensure assessment schedules for each of the drains are accurate and up to date. Following the assessment, an updated report will be prepared. Implementation of the changes will take place upon the completion and adoption of the report.

The nature of the required works does not include construction or physical enhancement and are not grant eligible under the requirements of the Ontario Ministry of Agriculture, Food and Rural Affairs.

# **Financial Implications:**

The municipality is responsible for maintaining municipal drains and ensuring assessment schedules are kept up to date.

The total estimated cost to complete the updated engineer report reflecting the revised assessments is \$15,000 which, upon adoption, will be invoiced to affected property owners after the work is complete.

# **Public Engagement:**

The *Drainage Act* is a public process and requires meetings with affected property owners, which are scheduled by the Drainage Superintendent as required.

# **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillars of the strategic plan:

- · Welcoming, Livable, Healthy Community
- Economic Prosperity
- Sustainable and Resilient Infrastructure

### **Conclusion:**

The approval of this report will allow staff to appoint a qualified engineer to complete the necessary investigation work required to revise the watershed limit, update assessment schedules, and prepare an updated engineer's report. This update will ensure future costs related to drainage works are assessed based on accurate information and reflect the current watershed limits.

The Corporation of the City of Port Colborne
By-law No
Being a By-law to Authorize Entering Into An Engineering Agreement With Spriet Associated Architects & Engineers For The Bearss Municipal Drain

Whereas on September 15, 1997, the Council of The Corporation of the City of Port Colborne enacted Bylaw 3429/11/97, being a By-law to provide for drainage works in the City of Port Colborne in the Regional Municipality of Niagara Bearss Drain and William Michael Drain; and

Whereas by resolution on April 23, 2024, the Council of The Corporation of the City of Port Colborne approved the appointment of Brandon Widner, P. Eng of Spriet Associates Engineers & Architects to proceed with the preparation of a new engineer's report to address the watershed limit of the Bearss Municipal Drain and revise the assessment schedules of the report; and

Whereas it is deemed expedient that the Council of The Corporation of the City of Port Colborne appoint an engineer to prepare a report that address the watershed limit of the Bearss Municipal Drain and revise the assessment schedules of the report;

Now therefore the Council of the Corporation of the City of Port Colborne under the *Drainage Act R.S.O. 1990*, enacts as follows:

- 1. That The Corporation of the City of Port Colborne enter into an Engineering Agreement with Spriet Associates Engineers & Architects regarding the Bearss Drain for the provision of drainage works.

**Subject: Drainage Maintenance Billing** 

To: Council

From: Public Works Department

Report Number: 2024-72

Meeting Date: April 23, 2024

#### **Recommendation:**

That Public Works Department Report 2024-72 be received; and

That Council direct staff to bill the outstanding drainage maintenance work and future maintenance annually by adding the calculated charges to the final tax bill of impacted property owners; and

That the By-law attached as Appendix A, being a By-law to Amend the Assessment Schedules and to Levy the Actual Costs Incurred for the maintenance of the following drains: John Pietz, Indian Creek Point Abino, Biederman, Wignell, Bearss West Branch West, Fred Pietz, Marsh, Zavitz, Beaver Dam, Haun, Ramey, Howie, Henry, Oil Mill Creek, Wm. Micheal, and Bearss Municipal Drains, be approved; and

That the By-law attached as Appendix B, being a By-law to Amend By-law 7155/97/23, be approved.

# Purpose:

This report has been prepared to update Council on municipal drain maintenance and construction billing, timing of drainage billing, and to introduce a new add-on fee for tax certificates for properties impacted by a municipal drain. Staff have also prepared a levy by-law for Council to adopt, which will allow staff to bill outstanding maintenance balances on the 2024 final tax bill.

# **Background:**

Once a Municipal Drainage Report has been adopted by Council, it is then the Municipality's responsibility to perform maintenance on said drain. The maintenance of

the drains outlined in this report were performed under Section 74 of the *Drainage Act, R.S.O., 1990* (the Act). Section 74 of the Act provides that drainage maintenance performed by a municipality shall be at the expense of all the upstream lands and roads assessed for the construction or improvement of the drainage works.

Maintenance expenses are distributed in the proportion determined by by-law, until varied or otherwise determined by an engineer in a report, or via a successful appeal. Each municipal drain must be adopted through by-law. The respective by-law information can be found on each assessment schedule included in Appendix A to this report.

As municipal drain maintenance is not required regularly, billing for the maintenance works does not occur according to a specific schedule. The irregular billing means that multiple years of maintenance expenses accumulate, which negatively impacts City funds and causes confusion among property owners who receive bills long after the work has been completed.

Recent discussions with the City's Financial Services Department have resulted in a proposed solution to the problems caused by irregular municipal drain billing: incorporating municipal drain maintenance costs into the final tax bills of the affected property owners to streamline the billing process and reduce confusion among impacted property owners.

### **Discussion:**

Unbilled municipal drain maintenance costs negatively impact municipal funds, as municipalities must perform the works long before costs are recouped. Municipal drains require regular maintenance such as beaver trapping, removal of dams, brushing and clearing, excavation, soil levelling, and gate control structure maintenance. Works can be performed by both third-party contractors and Public Works staff. The following is a summary of the unbilled maintenance costs by drain as of December 31, 2023:

Drain	Outstanding
Diani	Balance (\$)
Bearss Drain	576.99
Bearss Drain West Branch West Silverbay	10,552.58
Beaver Dam Drain	65,632.65
Beaverdams Drain Floodgate & Pump Station	20,601.77
Biederman Drain	41,796.97
Fred Pietz Drain	1,704.15
Henry Drain	21,951.65
Howie Drain	23,056.57
Indian Creek Drain	1,698.63
John Pietz Drain	4,573.50
Marsh Drain	33,346.97
Oil Mill Creek - Outlet Structure	2,731.36
Point Abino Drain	2,885.78
Ramey Drain	17,005.69
Wignell Drain Floodgate Structure	14,433.88
Wignell Michener Drain South of Railroad	37,494.46
Wm Michael Drain	94.72
Zavitz Drain Page 76 of 278	2,347.64
Total	302,485.96

The costs for construction projects can only be invoiced after the adoption of the engineer's report, which includes formulas for assessing charges. Allowing maintenance costs to accumulate over multiple years, or billing maintenance costs annually, both pose challenges for property owners when ownership changes. When property ownership changes, new owners often lack awareness of municipal drains and the associated fees related to both maintenance and construction projects. Annual billing minimizes these issues because the only fees involved are the current year's costs.

When properties change ownership, lawyers involved in the property transaction often request tax certificates to incorporate water and property tax balances in the property sale statement of adjustments. Outstanding balances related to drainage are not typically requested, which can lead to new property owners having to pay additional unexpected fees. Including outstanding drain balances as an add-on option to the existing tax certificate offering would serve to reduce confusion among new property owners.

An add-on option is advisable because while costs associated with drainage maintenance and construction projects are not monitored at the property level, they can be calculated at any time by the Drainage Superintendent using the assessment schedule. Staff recommend introducing an additional fee of \$26 to cover the expenses involved in determining the outstanding drainage costs for a property.

Unlike maintenance cost billing, construction cost billing cannot be billed annually. Billing for construction projects can only take place after several specific conditions are met: the final engineer's report must be received, the work must be completed, and Council must have passed the related levy bylaw.

The following table summarizes anticipated capital project costs and billing year, as of December 31, 2023:

Construction Drain	Balance (\$)	Anticipated Billing Year
Skelton	163,341	2024*
Beiderman	111,580	2025

#### **Internal Consultations:**

The City's Drainage staff collaborated with Financial Services staff to discuss drainage billing practices, challenges, and best practices in developing the recommendations presented in this report.

### **Financial Implications:**

When the municipality carries out work on a municipal drain, the costs are initially covered by the City. These expenses are then recovered from the property owners within the watershed at the time of billing. The following is a summary of costs to be billed this year:

- \$ 210,878.83 Amount to be billed to property owners
  - 54,317.01 Amount to be billed to City (Municipal roads and municipal owned parcels)
    - 341.48 Amount to be paid by storm sewer fees collected
  - 36,948.64 Amount to be paid by OMAFRA Grant
- \$ 302,485.96

OMAFRA grants have been applied for and received for works prior to 2022. The 2023 grant has been applied for but not yet received. Should the 2023 grant be less than the anticipated standard of 1/3, another bill will be sent to affected parcels for the difference in the cost. The cost breakdown for each drain can be found in the Levy Bylaw.

This billing exercise will resolve all maintenance accounts, except for accounts included in the Eagle Marsh Drain. An engineer was appointed in 2019 to update the report for this drain. Once the report is completed, the accrued amounts will be billed to the affected property owners of the watershed. Currently, there is no assessment schedule for this report. However, the engineer of record has agreed to incorporate the accumulated maintenance costs into the new report, allowing the municipality to collect maintenance costs incurred.

## **Public Engagement:**

When maintenance works on drains are completed, the owners of the parcels through which the drains pass are notified before the work is completed.

# **Strategic Plan Alignment:**

The initiative contained within this report supports the following pillar(s) of the strategic plan:

Welcoming, Livable, Healthy Community

- Economic Prosperity
- Sustainable and Resilient Infrastructure

### **Conclusion:**

That Council approve the recommendations as presented above.

## **Appendices:**

# **Analysis**

#### **Development Applications**

Growth Strategy and Economic Development (GSED) staff reviewed 794 development applications in 2023, which is approximately a 4% decrease to volumes in 2022 (829). Figure 1 illustrates the number of applications considered by GSED staff from 2013 to 2023. The two highest application volumes were experienced in 2021 and 2022.

Development applications were circulated to the Region based on Provincial legislation requirements, including the Niagara Escarpment Commission legislation, and the existing 2019 Memorandum of Understanding (MOU) between the Region and the Local Area Municipalities for planning in Niagara. GSED staff can waive its review of certain types of minor development applications when it has been determined that the application has no Provincial or Regional interest. This represents an effort to increase efficiency in the planning review function in Niagara under the MOU.

Figure 2 provides a breakdown of development applications, by type, reviewed by GSED staff in 2023. Some complex development proposals often require multiple planning approvals. As an example, subdivision and condominium applications may also require amendments to the local Official Plan and/or Zoning By-law to facilitate the development. The categories with the most applications reviewed by GSED staff in 2023 were Zoning By-law Amendments (127), Minor Variances (118), followed closely by Consents (117), and Site Plans (98).

The distribution of applications circulated to the Region, by municipality, during 2023 is shown in Figure 3. Municipalities with the highest volume of applications were Fort Erie (216), Lincoln (139), Niagara Falls (134), and Niagara-on-the-Lake (118). Most municipalities, except for Fort Erie, Welland, and West Lincoln, experienced a decrease in applications considered between 2022 and 2023. The decline in application volumes is attributed to the effect of increased interest rates, which impacts the overall cost of development and has limited the ability of some landowners to proceed with an application.

Regional staff was also involved in reviewing several complex development applications in 2023, as highlighted in Appendix 1 of this report. This includes quarry applications in Port Colborne, Niagara Falls, and Wainfleet; the South Niagara Falls Hospital; and, several large subdivision files. This often requires a more extensive review process and can be influenced by a broad range of issues (i.e., environmental impacts, traffic impacts, urban design considerations, etc.). For several of these applications, Regional staff also assisted with urban design review, at the request of local municipal staff, as well as preparing design alternatives and contributing to discussions with developers.

#### **Pre-consultation Meetings**

GSED staff attend regular pre-consultation meetings bi-weekly with each local municipality and applicants on potential development proposals. These meetings are to determine complete application submission requirements and assist in the processing of applications. The virtual meeting format began in April 2020 as a result of the pandemic and has continued for most municipalities throughout 2023. Three local municipalities have implemented a hybrid model where attendees can choose to attend the meeting in-person or virtually. The use of hybrid and virtual pre-consultation meetings has been well received by development proponents and their consultants as it provides efficiency and time savings, such as the ability to attend "back-to-back" pre-consultation meetings in different municipalities without the need to travel.

Figure 4 illustrates the number of pre-consultation meetings attended by GSED staff from 2013 to 2023. In 2023, Regional staff attended 654 pre-consultation meetings, which is a 24% decrease from the 2022 total (863). The number of pre-consultation meetings is generally an indicator of anticipated future development application volumes; however, decisions by developers to proceed with a submission of an application is dependent on several variables, including interest rates.

Figure 5 illustrates the number of pre-consultation meetings by municipality in 2023 that were attended by Regional staff. The municipalities with the highest levels of pre-consultation activity were Niagara Falls (113), Fort Erie (104), Welland (91), St. Catharines (75), and Thorold (51).

## **Regional Review Fees**

Regional review fees are intended to offset Regional costs for the development review service on a cost recovery basis. Figure 6 summaries the fees collected between 2013 and 2023 for the Regional review of development applications. The 2023 total of \$1,949,835 represents a 23% increase from 2022.

While the development and pre-consultation volumes have decreased from 2022, the increase in fees can be attributed to an increase in development applications with higher fees (Official Plan Amendments, Zoning By-law Amendments, Draft Plan of Condominiums and Subdivisions) received in 2023 compared to the previous year. Furthermore, in March 2023, the Region's new pre-consultation review fee started, which was approved by Council in the 2023 fees and charges by-law. This review fee is collected for all pre-consultation meetings (excludes Minor Variance and Consent applications).

#### 2024 Outlook

Throughout 2023, Provincial legislative changes continued and will factor into the uncertainty of development activity in 2024.

Bill 109 More Homes for Everyone Act, 2022 mandates the refund of application fees for certain planning applications (Zoning By-law Amendments, Draft Plan of Subdivision, and Site Plans) if decisions are not made within prescribed timelines. This provision took effect July 1, 2023, and Regional staff have been working closely with local area municipalities to ensure planning processes are adjusted to meet legislative timelines so development proceeds at an efficient pace.

On November 28, 2022, Bill 23, *More Homes, Built Faster Act, 2022* was given Royal Assent, however, not all changes came into force immediately. Provisions which identify Niagara Region as an upper-tier municipality without planning responsibilities are not yet in effect. These changes only come into force by proclamation of the

Lieutenant Governor and the timing is currently unknown. Until proclamation occurs, and any prescribed transition period is known, GSED staff maintains current operating review of development application in alignment with our existing MOU and legislative requirements of the Planning Act. Staff and local area municipalities continue to work towards planning review process improvements, transition discussions, and discussing opportunities for planning service agreements post proclamation.

In Q1 of 2024, the Region will be launching an update to CityView, which will replace the existing development tracking system. CityView is currently utilized within the Niagara Region Public Works Department, several of the local area municipalities, and the Niagara Peninsula Conservation Authority. This update will include CityView's Permitting Licensing and Land (for tracking and management of development applications), CityView Portal (public facing module for application intake and real-time status tracking), BlueBeam Review software (for review and markup of digital drawing submissions), and an online payment processing module. Overall, CityView is expected to improve the development approval process through increased efficiency, effectiveness, and predictability. The new tracking system will also improve the Regions ability to track and monitor our existing housing supply.

#### Purpose:

The purpose of this report is to inform the Board of the new provisions under the *Conservation Authorities Act* and new regulations coming into effect on April 1, 2024, to provide a summary of key changes, and to seek approval of staff recommendations for housekeeping amendments to the NPCA Policy Document and a transition plan for conforming to the legislative and regulatory changes.

#### **Background:**

In recent years, the *Conservation Authorities Act*, has been amended through several pieces of legislation starting in 2017 with the *Building Better Communities and Conserving Watersheds Act*, and more recently in late 2022 through the *More Homes Built Faster Act* (Bill 23). These amendments have been implemented at various times per legislative proclamations. In late 2022, a regulatory proposal for "Proposed updates to the regulation of development for the protection of people and property from natural hazards in Ontario" was posted on the Environmental Registry of Ontario (ERO) for consultation.

Conservation authorities across the province, including the NPCA, have provided comments to the Provincial Government on the proposed changes either directly or through Conservation Ontario. During the consultation on Bill 23, the NPCA sent comments directly through the ERO and was invited to make a delegation to the Standing Committee on Heritage, Culture and Infrastructure Policy.

On February 16, 2024, the Ministry of Natural Resources and Forestry (MNRF) provided notice that the proclamation of provisions of the *Conservation Authorities Act* related to work permits and compliance and enforcement, as well as the approval of Ontario Regulation (O. Reg.) 688/21: Rules of Conduct in Conservation Areas, O. Reg. 41/24: Prohibited Activities, Exemptions and Permits, and amendments to O. Reg. 686/21: Mandatory Programs and Services made under the act (O. Reg. 42/24), will all come into effect on April 1, 2024.

E-laws has been updated to include the proclamation date within the *Conservation Authorities Act* and the new regulations:

- Conservation Authorities Act: <a href="https://www.ontario.ca/laws/statute/90c27">https://www.ontario.ca/laws/statute/90c27</a>
- O. Reg. 688/21: Rules of Conduct in Conservation Areas: <a href="https://www.ontario.ca/laws/regulation/210688">https://www.ontario.ca/laws/regulation/210688</a>

- O. Reg. 41/24: Prohibited Activities, Exemptions and Permits: <a href="https://www.ontario.ca/laws/regulation/r24041#BK0">https://www.ontario.ca/laws/regulation/r24041#BK0</a>
- O. Reg. 42/24: Mandatory Programs and Services: https://www.ontario.ca/laws/regulation/r24042

Effective April 1, 2024, O. Reg. 41/24: Prohibited Activities, Exemptions and Permits sets out details on prohibited activities and areas where a conservation authority permit is required, exemptions from a permit for certain low-risk activities, the process for applying for a conservation authority permit, and service requirements for conservation authorities in reviewing permit applications. The new regulation will apply to all conservation authorities and the existing 36 conservation authority-specific regulations ("Regulation of Development, Interference with Wetlands and Alterations to Shorelines and Watercourses") will be revoked.

Amendments to O. Reg. 686/21: Mandatory Programs and Services, also in effect April 1, 2024, prescribes requirements for conservation authorities to prepare an annual report that outlines statistics on permits, including reporting on their level of compliance with the requirements set out in O. Reg. 41/24

Since 2018, the NPCA Planning and Development division has been developing policies, procedural guidance, customer service standards and regulatory mapping updates to improve customer service delivery and respond to the on-going changes to the *Conservation Authorities Act*.

In 2020, the process to update the NPCA Policy Document began and in 2022, the Board of Directors approved an updated Policy Document and Procedural Manual to provide much-needed clarity and direction to staff and applicants for planning and permit applications under the current legislation while establishing a solid foundation for future updates that would be required. This focus on continuous improvement has positioned NPCA to effectively transition to preparing new and updated policies and procedures to ensure the Planning and Development programs and services conform to the pending legislative and regulatory changes.

#### Discussion:

The new legislative structure includes requirements for the administration of work permits, enforcement of offences and public use of conservation authority properties in both the *Conservation Authorities Act* and regulations. The following summary highlights key changes resulting from the passing of the new regulation and the enactment of amended sections under the *Conservation Authorities Act*.

#### **Defining Regulated Activities and Areas**

- The term, "development" has been replaced by "development activity" but the definition remains the same.
- The definition of a "watercourse" has been amended to require that a
  watercourse be a defined channel, having a bed and banks or sides
  (formerly defined as an identifiable depression in the ground).
- The definition of "pollution" is removed, which is an amendment related to the new criteria or 'tests' of a permit.
- The regulated area adjacent to a wetland is changed to 30m for all wetlands and there are no size thresholds. The former legislation included 120m for provincially significant wetlands and wetlands greater than two hectares in size, and 30m for wetlands less than two hectares in size.
- The hazard allowances, which are regulated areas adjacent to apparent and non-apparent river or stream valleys (including floodplains) has been standardized for all conservation authorities. The existing exception for hazard allowance to non-apparent valleys has remained unchanged for the NPCA.
- The description of regulated areas adjacent or close to the Great Lakes-St. Lawrence River System continues to include the 100-year flood level, plus the appropriate allowance for wave uprush and also specifies, "other water-related hazards, including ship-generated waves, ice piling and ice jamming."
- A standard 30m allowance from a dynamic beach associated with waterfront lands has been added.
- A standard additional 15m allowance inland from the further extent of the regulated areas from the Great Lakes-St. Lawrence River System has been included.

#### Regulation Mapping

- Maps depicting regulated areas must be made available to the public on an authority's website, and any other means the authority considers advisable.
- At least once annually the authority must review mapping to determine if updates are required and make any updates available to the public.
- Where significant mapping updates are to be made, an authority shall provide notice to the public, municipalities, and stakeholders at least 30 days prior to any authority meeting to consider the changes.
- Regulation continues to state that in the case of a conflict regarding the boundaries of the regulated areas, the description of those areas in O. Reg. 41/24 prevails over the depiction of the areas in the maps.

#### **Exemptions for Low-Risk Activities**

- A number of development activities considered low-risk are exempt from requiring a permit.
- The exempted development activities are mainly minor in nature and would fall under the NPCA "minor" or "routine" permit category. There are size threshold and location criteria that also must be met.
- Generally, the exempted activities include:
  - Seasonal or floating dock
  - fencing
  - agricultural in-field erosion control structures
  - non-habitable accessory structures
  - o non-habitable garage reconstruction
  - o unenclosed detached decks or patio
  - o installation/maintenance of tile drains
  - o installation/maintenance of an offline pond for watering livestock
  - the maintenance or repair of municipal drains (previously permits were required for municipal drain works within wetlands).
     Conservation Ontario is seeking clarification from the Province on revisions to the DART protocol.
  - maintenance/repair of private driveway/laneway or public road/driveway

#### Permit Application Requirements

- An authority and applicant can engage in pre-submission consultation. If an applicant requests a pre-submission consultation, the authority is required to engage in the consultation.
- More detailed list of permit application requirements, including fee submission and landowner authorization.
- The applicant must be notified in writing within 21 days of receiving an application if application is deemed complete.
- Once an application is deemed complete, no new studies/plans can be requested unless agreed to by the applicant; however, the authority may ask the applicant for clarification or further details regarding any matter related to the application.
- An applicant may request an administrative review by an authority if they
  do not receive a notice of complete application within 21 days or if the
  applicant disagrees with the authority's determination of a complete
  application or the request for additional information/studies/plans is
  unreasonable.
  - Administrative reviews must be completed within 30 days of request.
  - There is no appeal mechanism if the applicant disagrees with the outcome of the review.

 Requests for permit fee reconsideration must be responded to within 30 days and can be appealed to the Ontario Land Tribunal (OLT) for nondecision or continued objection to fee amount.

#### **Permits**

- Existing permit approval 'tests' related to "pollution" and "conservation of land" are removed.
- New tests added for consideration of "unstable soil or bedrock", "health or safety of persons", and "damage or destruction of property". The control of flooding, erosion, and dynamic beaches remains.
- Permit conditions are limited to those which assist in preventing or mitigating hazards or effects on health and safety or property damage, or which support permit administration.
- Maximum period of validity for permits increases from 24 to 60 months.
- If the authority fails to give the applicant notice of a decision on a complete application within 90 days, the applicant can appeal directly to the OLT.
   Former guidance through Conservation Ontario has been to provide notice of a decision within 30 days for minor permits and 90 days for major permits.
- New powers for the Minister of Natural Resources and Forestry to issue permits and/or direct an authority not to issue a permit.
- Applicants may request a Minister's review where the authority refuses a
  permit or imposes conditions on a permit to which an applicant objects.
  The Minister's decision is final.
- An applicant may appeal an authority's decision to refuse a permit or issue a permit subject to conditions following a hearing of the Board to the OLT.
- Provision allows for the exemption of development from obtaining a permit
  within a municipality prescribed by regulation where the development has
  been authorized under the *Planning Act*. However, a regulation under this
  section has not been made at this time.

#### **Enforcement and Offences**

- Appointment of Officers moved from individual regulations (to be revoked) to Part VII of the Conservation Authorities Act.
- Minor changes to provisions for power of entry to private property.
- New powers for Officers to issue Stop Orders where:
  - Officer forms reasonable grounds to believe that a person is engaging in activity or about to engage in activity that contravenes the Act, regulations or permit conditions;
  - Activity has caused or is causing significant damage that would affect natural hazards, health and safety of persons or damage property; or
  - Order will prevent/reduce damage.

 Maximum penalties for offences increased – up to \$50,000 and up to three months imprisonment for individuals and \$1 million for corporations, plus additional daily fines and/or court-imposed amounts.

#### Reporting and Policies

- Authorities shall develop policy and procedure documents for permit applications and reviews.
- Authorities shall prepare and publish an annual report that outlines statistics on permits and its level of compliance with the requirements of O. Reg. 41/24.

#### Conservation Areas

- Enactment of O. Reg. 688/21: Rules of Conduct in Conservation Areas replaces individual conservation authority regulations.
- Outlines prohibited activities and activities requiring a permit on lands owned by conservation authorities.
- Enforcement provisions remain unchanged.

#### <u>Transition Plan to Achieve Conformity with Legislation</u>

Given the short amount of transition time (six weeks) to the date (April 1, 2024) the amended legislation and regulations come into force, conservation authorities are working closely with Conservation Ontario to ensure conformity to the Legislation is achieved in a timely and coordinated manner. NPCA has been proactively working on some of these items over the past few years. While NPCA is expected to comply with the proclaimed pieces of legislation as of April 1, 2024, best efforts will be made to prepare and update policies and procedures in a timely yet thorough manner.

It is recommended that the NPCA take a phased approach to implementing the changes, beginning with key housekeeping amendments to the NPCA Policy Document and administrative updates to forms and templates, followed by more comprehensive work requiring further time and resources.

Appendix 1 describes the nature of the proposed housekeeping amendments to the NPCA Policy Document that staff will endeavour to have completed and posted to the NPCA website by April 1, 2024. These amendments include updating legislation and regulation references, revising definitions, revising descriptions of regulated areas, updating references to the 'tests' of a permit and including the permit exemptions.

Appendix 2 includes a transition plan that identifies the administrative updates, such as re-delegation of authority for permits, re-appointment of Officers, and

updates to permit application forms and templates that will be in place by April 1, 2024, and the long-term workplan with general timelines that are required to bring the NPCA policies and procedures in conformity with the amended legislation and regulations.

Planning and Development staff will report to the Board of Directors periodically to provide status updates on the implementation of the transition plan.

#### **Financial Implications:**

There are no financial implications associated with this report. Resources required to implement the legislative and regulatory changes under the *Conservation Authorities Act* are funded through the approved budget.

#### Links to Policy/Strategic Plan

The mandated regulatory role of conservation authorities aligns with the NPCA's 10-year Strategic Plan goals to protect people and properties from natural hazards and climate impact, and maintain a high standard of client services, tools and procedures for planning review and permits.

Planning and Development staff will report to the Board of Directors periodically to provide status updates on the implementation of the transition plan. In the meantime, NPCA Planning and Development staff will ensure that the authority continues to carry out its duties, functions and responsibilities to administer and enforce the provisions of Part VI and VII of the *Conservation Authorities Act* and any regulations made under those Parts.

# Proposal summary

We are proposing a regulation specifying the circumstances under which the Minister may issue an order to prevent a conservation authority from making a permitting decision and make the permitting decision in the place of a conservation authority or may undertake a review of a conservation authority permitting decision.

# Proposal details

Conservation authorities regulate development and other activities through a permitting process under the *Conservation Authorities Act* for the purposes of natural hazard management and to protect people and property from natural hazards, such as flooding and erosion. Each conservation authority implements the permitting framework based on provincial legislation, regulatory

requirements, and technical standards, as well as conservation authority board-approved policies that outline how the conservation authority administers regulations locally.

Recently proclaimed provisions in the *Conservation Authorities Act* and associated regulations came into effect on April 1, 2024, including new powers for the Minister to 1) issue an order to prevent a conservation authority from issuing a permit and to take over the permitting process in the place of a conservation authority, and 2) review a conservation authority permit decision at the request of the applicant.

The Ministry is proposing a regulation which would set out the circumstances under which these powers could be used. If the regulation is approved, public guidance would be made available on the criteria and processes outlined in the regulation.

## 1. Permits issued by the Minister

Existing requirements under the *Conservation Authorities Act* regarding permits issued by the Minister under section 28.1.1 include:

- The Minister may issue an order directing a conservation authority not to issue a permit to a specific individual to engage in a specified activity, or to persons who may wish to engage in a certain type or class of activity, that would be prohibited under section 28 without a permit.
- The Minister's decision to issue an order is discretionary, and it may be issued either before or after an application for a permit has been submitted to the relevant conservation authority.
- Notice of any order must be provided to affected conservation authorities, any person who applied for the permit in question prior to the order and be posted on the Environmental Registry of Ontario (ERO (Environmental Registry of Ontario)) within 30-days.
- If an order made, the Minister has the power to issue a permit in place
  of the conservation authority. When making a permitting decision, the
  Minister is required to satisfy the same criteria concerning natural
  hazards and public safety that are considered by conservation
  authorities. This includes whether the activity is likely to affect the
  control of flooding, erosion, dynamic beaches or unstable soil or

bedrock. It also must consider whether the activity is likely to create conditions or circumstances that, in the event of a natural hazard, might jeopardize the health or safety of persons or result in the damage or destruction of property.

• The Minister may refuse the permit or issue a permit subject to such conditions as the Minister determines are appropriate.

# Proposed additional requirements that would be set out in regulation include:

- The Minister may make an order to prevent a conservation authority from making a permitting decision and take over the permitting process only if the development activity or type or class of permits pertains to or supports a specified provincial interest, including:
  - Housing (community, affordable and market-based)
  - Community services (health, long-term care, education, recreation socio-cultural, security and safety, environment)
  - Transportation infrastructure
  - Buildings that facilitate economic development or employment
  - Mixed use developments
- If a proponent wishes to petition the Minister to issue an order, the proponent must submit a request to the Minister that would include information on:
  - Overview of proposed development.
  - Why the Minister's involvement is requested (e.g., development of provincial interest, timing/urgency; permitting process to date if applicable; other barriers) and preferable to the standard process in the Conservation Authorities Act.
  - Indication of whether the local municipality has endorsed the project and the request for Minister's involvement (e.g., by municipal letter or resolution).
  - Status of other required project approvals including the extent of any engagement with the conservation authority in the permitting process that the applicant has had to date.

# 2. Permits reviewed by the Minister

Existing requirements under the *Conservation Authorities Act* relating to requests for review under section 28.1.2 regarding permits where there is an order made by the Minister of Municipal Affairs and Housing under section 34.1 or 47 of the *Planning Act* and section 28.1 regarding all other conservation authority permits include:

- An applicant who has been refused a permit or had conditions attached
  to a permit by a conservation authority to which the applicant objects
  can, within 15-days of receiving reasons for the authority's decision,
  submit a request to the Minister for the Minister to review the
  authority's decision. Alternatively, an applicant also has the option to
  appeal the authority's decision to the Ontario Land Tribunal.
- After receiving a request, the Minister has 30-days in which to decide whether or not they intend to conduct a review. If the Minister decides to conduct the review. a notice shall be posted on the <u>ERO</u>
   (<u>Environmental Registry of Ontario</u>) within 30-days of a reply indicating the Minister intends to review the decision by the authority. If the Minister does not reply within 30-days of the request, this is deemed to indicate that the Minister does not intend to conduct a review.
- After conducting a review, the Minister may confirm or vary the authority's decision or make any decision that the Minister considers appropriate, including issuing the permit subject to conditions.
- The Minister is required to base the decision on same criteria concerning natural hazards and public safety that are considered by conservation authorities. This includes whether the activity is likely to affect the control of flooding, erosion, dynamic beaches or unstable soil or bedrock. It also must consider whether the activity is likely to create conditions or circumstances that, in the event of a natural hazard, might jeopardize the health or safety of persons or result in the damage or destruction of property.

# Proposed additional requirements that would be set out in regulation include:

- The Minister may conduct a review of a conservation authority permit decision only if the development activity pertains to or supports a development of specified provincial interest, including:
  - Housing (community, affordable and market-based)

- Community services (health, long-term care, education, recreation socio-cultural, security and safety, environment)
- Transportation infrastructure
- Buildings that facilitate economic development or employment
- Mixed use developments

Note: This criteria would not apply to permit reviews under section 28.1.2 regarding permits where there is an order made by the Minister of Municipal Affairs and Housing under section 34.1 or 47 of the *Planning Act*.

- The request submitted to the Minister for a review would include information on:
  - Overview of proposed development.
  - If the request relates to conditions imposed by the conservation authority to which the applicant objects, identification of the specific conditions that are subject to the request for review, the changes requested to the conditions and the rationale in support of the requested changes.
  - If the request relates to an authority's decision to refuse a permit, the rationale in support of requesting that the Minister varies the decision and issues the permit.
  - Why the Minister's involvement is requested (e.g., development of provincial interest, timing/urgency; permitting process to date; other barriers) and preferable to alternative mechanisms in the Conservation Authorities Act.
  - o Indication of whether the local municipality has endorsed the project and/or the request for Minister's involvement (e.g., by municipal letter or resolution).
  - Status of other required project approvals.

### Regulatory impact analysis

By clearly communicating the circumstances under which the Minister would consider whether to issue an order to prevent a conservation authority from making a permitting decision and to make permitting decisions in place of a conservation authority or to review a conservation authority permitting decision, this proposal would ensure that development proponents pursue the appropriate permitting channel. Efficiently navigating the permitting process is

expected to help save proponents time and resources. We expect that there will be some minor administrative costs for development proponents based on the time needed to learn about and understand the proposed changes.

#### **RE: CN RIGHT-OF-WAY VEGETATION MANAGEMENT**

Dear Mayor,

CN remains committed to running its railway sustainably, as well as building a level of trust and collaboration with the communities in which we operate.

To that end, we are reaching out to advise you of our vegetation management activities in your area between April and October 2024. A regularly updated schedule is available at: <a href="https://cx.ca/vegetation">CN.ca/vegetation</a>.

Vegetation management is necessary to comply with rules and regulations set by Transport Canada and enhances the safety of motorists and pedestrians at crossings.

CN's annual vegetation management program is designed to mitigate potential risks to railway operations by managing weeds, and other undesirable vegetation. This program is critical to ensure safe operations and contributes to the overall safety of your community.

#### **Management Strategies**

CN manages vegetation using both chemical and mechanical methods. We are sensitive to concerns your community may have regarding chemical vegetation management and at CN, we strive to safeguard our neighbouring communities and the environment.

The track infrastructure is composed of two main sections, the 24-foot ballast section (which is primarily gravel and supports the track structure) and the right of way portion (which is the area outside of the ballast section to the CN property boundary).

The 24-foot ballast section and the areas around signals and communications equipment that are critical for safe railway operations will be managed using chemical methods. Application in these safety critical areas is done by spray trucks or spray trains with downcast nozzles that spray a short distance above the ground surface with shrouded booms, specially designed to limit the chemicals from drifting. The right-of-way section is maintained using mechanical control methods such as mowing, or brush cutting and may be chemically treated to control noxious or invasive weeds or brush.

CN will use chemical control techniques on the ballast section and specific locations of the right of way throughout the network for safety reasons. Furthermore, when chemicals are applied via spray train or truck, additives called surfactants are included to make the chemical work better.

CN has retained professional contractors qualified to undertake this work. They are required to comply with all laws and regulations applicable to CN. In addition, the contractors will ensure that vegetation control is performed with consideration of the environment and in accordance with the highest industry standards.

#### **Inquiries**

Should your community have any noxious weed removal requests, we ask that you contact CN's Public Inquiry Line at <a href="mailto:contact@cn.ca">contact@cn.ca</a> or fill out the form at <a href="mailto:CN.ca/vegetation">CN.ca/vegetation</a> before June 1, 2024 with the specific information and location. CN will make every effort to include those locations as part of our 2024 Vegetation Management Program. All notices sent after the above-mentioned date will be included in the 2025 Vegetation Management Plan.

We look forward to working with you and answering any questions you may have regarding our vegetation control activities in your community.

Please find attached the notices CN is publishing in local papers to advise the public. We would kindly ask that you post copies on your community's website and at City Hall or other central locations for a wider distribution.

For any questions or more information, please contact the CN Public Inquiry Line by telephone at 1888-888-5909, or by email at <a href="mailto:contact@cn.ca">contact@cn.ca</a>.

Please also find a list of FAQs regarding the program that may be of further assistance at www.cn.ca/en/vegetation. Best regards,

Laura Hammer

Vegetation Manager

#### ANNUAL VEGETATION MANAGEMENT PROGRAM

Each year, CN is required to manage vegetation on its right-of-way. Managing this vegetation contributes to mitigating fire risks and enhances the efficiency of inspection of track infrastructure. The spray program is not being done for aesthetic reasons.

To ensure safe railway operations, CN will conduct its annual spray program on its rail lines in the province of Ontario. A certified professional (Davey Tree Expert Company Ltd., 1-800-465-6367) will apply herbicides on and around the railway tracks (primarily along the 24-foot graveled area/ballast). Product requirements for setbacks in the vicinity of dwellings, aquatic environments and municipal water supplies will be met.

CN may use the following herbicides and active ingredients: Credit Xtreme (Nufarm), Esplanade (Bayer), Detail (BASF), Arsenal Powerline (BASF), Navius Flex (Bayer), Gateway (Corteva), Hasten NT (Norac), Round Up Weather Pro (Bayer), Torpedo (Valent), Telar (Envu/Bayer), Clearview (Corteva), Aspect (Corteva), Garlon XRT (Corteva), Milestone NXT (Corteva), Glyphosate (540g/L), Indaziflam (200 g/L), Saflufenacil (29.74%), Imazapyr (26.7%), Metsulfuron-methyl (12.6%), Aminocyclopyrachlor (39.5%), Paraffinic Oil (586 g/L), Alkoxylated alcohol non-ionic surfactants (242 g/L), Methyl and Ethyl oleate (esterified vegetable oil 75.20%), Flumioxazin (33.5%), Pyroxasulfone (42.5%), Chlorsulfuron (75%), Aminopyralid (52.5%-60%), Metsulfuron-methyl (94.5%), Picloram (97.5g/L), 2, 4-D (360 g/L), Triclopyr (755g/L), Florpyrauxifen (4.77%)

CN only uses herbicides that have been approved for use in Canada and in the province within which they are applied.

The program is expected to take place from May to October 2024.

Visit www.cn.ca/vegetation for more information or to make an inquiry, contact the CN Public Inquiry Line at contact@cn.ca or 1-888-888-5909.
