## Ontario Heritage Act - Heritage Conservation Districts (Part V)

A summary of the process of establishing a Heritage Conservation District is below.

The timing of each step will vary based on factors such as the size of the proposed HCD and whether any appeals are received. If appealed, the decision will be made by the Ontario Land Tribunal.

<b>Steps for establishing a Heritage Conservation District (HCD)</b>
<b>1. HCD Study</b>
Estimated time to complete: approx. 1 year
Public engagement and research on the proposed HCD. Once approved, the Study is made publicly available.
<b>2. Preparation of HCD Plan</b>
Estimated time to complete: approx. 1 year
Consultation with Heritage Committee and public engagement to help draft the Plan.
<b>3. Public Meeting for HCD Plan</b>
Notice to be provided a minimum of 20 days prior to Public Meeting
Written and oral representations regarding the proposed HCD Plan are received.
<b>4. Written Submissions</b>
Time to complete will depend on feedback at Public Meeting
Written representations regarding the proposed HCD Plan may be made at any time before the Plan is adopted by by-law.
<b>5. Council Passes By-law</b>
Time to complete will depend on feedback at Public Meeting
Designates a defined area as an HCD and approval of the HCD adoption plan.
<b>6. Notice of By-law</b>
Time to Complete: TBD
Notice is to be served to each owner of property in HCD and on Trust. To be published in a manner the Heritage Committee deems appropriate.
<b>7. Appeal Period</b>
Time to complete: 30 days after public date of notice of by-law
An appeal may be filed with the Ontario Land Tribunal within 30 days of the issuance of the notice of passing.
<b>8. By-law Registration</b>
Time to complete will depend on number of properties in HCD
Registration of by-law on title of properties in HCD.

**Estimated time to establish an HCD, if no appeals: 2-3 years**

<b>322 King Street</b>	1896/15/87	Features: Italianate architectural features, five-bay façade with centre doorway and Georgian windows accented by frontispiece.	Lots 1 and 2, west side of King Street and parts 1 and 2, east side of Catharine Street, now Plans 987, 988 and 989 and shown as Parts 1, 2, 3 and 4 on Plan 59R-4933	Charles H. Carter, a member of 1870 Port Colborne's first council, commissioned the building after 1867 by Mr. Landgroft. His wife, Mirando Carter, was a descendant of the Steele family.
<b>14 Catharine Street</b>	4634/16/05	Features: front door with beveled glass, bay and stained glass windows, an oriel window, tower, porches, original woodwork, fireplaces, a black walnut staircase, and notable trees, along with archaeological resources and First Nations burials.	Part of Lots 4, 5, & 6 on the Lakeshore in the rear of Lots 6, 7 & 8 on the south side of Sugarloaf Street, Plan 987, 988 and 989	William Arnott built Wildwood in 1867 and later expanded it by Alice Dickinson in 1886. The eclectic Victorian-style building features Queen Anne and Greek Revival elements, original woodwork, a winding walnut staircase, and historical garden plants. The surrounding land includes mature trees and an archaeological burial site.
<b>145 Main Street West</b>	1764/29/86	Features: notable detailed woodwork around the verandah, the verandah posts, and the semi-elliptical window features.	Lots 2 and 3 on the north side of Main Street now known as Plan 762	This home, built in 1860, was the original residence of Elias Augustine. It is one of the original structures of the Village of Petersburg.
<b>518 King Street</b>	1389/82/83	Features: combines Gothic Revival, Italianate, and Georgian architectural elements with irregular massing, exaggerated roof pitches, lacey trim, and round-headed windows, creating a unique and charming historical structure.	Part of Block F on the west side of Victoria Street (now King Street), according to Registered Plan 3252, now known as Plan 775	The property, granted to John Neave in 1802, was built in the late 19th century by Frederick Joseph Quinn, preserved by Herman H. Ott, and converted into commercial offices by Cash, Reilly, and Quinn in 1979.
<b>334 Sugarloaf Street - Tennessee Gates</b>	1390/83/83	Features: wrought-iron gates are made in Toronto, and the masonry by Edward Wegerich and his father uses local limestone, beach gravel, and lime mortar <sup>164</sup> and replicates gates in St. Louis, Missouri.	Parts 1, 2, 3, 4, 5, and 6 of Plan 59R-3938	The stone entrance and gates at Tennessee Avenue memorialize the 1888 "Humberstone Club" summer colony, with the O'Fallon family donating the gates in 1898, naming each pillar after their daughters, Elizabeth and Caroline
