The Gamerspace will include a Nintendo Switch console, extra Joy-Con controllers to facilitate multiplayer gaming, and a small collection of in-library use Switch games. The Gamerspace will be supplemented with our existing video game collection, which can be used in the Gamerspace or checked out.

Include a budget breakdown for how the \$500 will be spent.

The grant will be used to purchase a Nintendo Switch Console at \$399.99 and an additional pair of Joy-Con controllers at \$99.99. The library will continue to use its existing video game budget to purchase Switch games that can be used in the Gamerspace.

Port Colborne Children's Book Now Available to the Community

By KEASHA MAILE, PCO

A book created by Port Colborne children is now available in local school libraries and for purchase at the Port Colborne Public Library, giving young artists a chance to see their work shared across the community.

The book, which recently won the Minister's Award for Innovation at the Ontario Library Association Super Conference, was created at the City of Port Colborne's Touch-A-Truck event on Oct. 3. During the event, children explored various trucks, vehicles, and equipment used by City staff and expressed their experiences through drawings. These illustrations were then compiled by the Port Colborne Public Library into a published book.

Library CEO Rachel Tkachuk highlighted the significance of the project in amplifying

children's voices. "The Touch-a-Truck Book inspires literacy and allows children to see themselves reflected in their community by making them published authors in their own schools and library," she said. "We are grateful for the opportunity to collaborate with the City on this project."

Following its recent award, interest in the book has grown. "We are deeply honoured to receive the Minister's Award for Innovation, and we are grateful for the recognition of our efforts to connect the community through storytelling and creativity," Tkachuk said. "It's great to be able to share this type of project with libraries from across the province."

Each elementary school library in Port Colborne will receive a donated copy of the book.

Community members can also purchase a copy for \$10 at the library, with proceeds supporting children's programming. Orders are printed on demand, and payments can be made with cash, debit, or cheque.

This special book stands as a creative testament to the city's youngest residents, celebrating their perspectives while encouraging literacy and artistic expression.

1. Facilities Updates

An air purifier with HEPA filters was added to the main floor of the library.
 Two additional units will be ordered for the main floor.

2. City Partnerships and Opportunities

Surveys

Ongoing City surveys were available for the public at the library, including:

- Future of Healthcare in Port Colborne
- Grain Terminal
- Future of Child Care in Port Colborne
- Dredging at Sugarloaf Marina and the Public Boat Launch
- Backyard Chickens within Port Colborne's Urban Boundary

Top Hat Ceremony

The Top Hat Ceremony was celebrated at Lock 8 Park on Monday, March 24, 2025. Library staff attended planning sessions for the event and worked collaboratively with the Museum and Communications Team to provide commemorative buttons and informational brochures for attendees. Remaining buttons were distributed at the library.

Library of Things Reel

The City's Communications Team created a promotional video for social media to spotlighted items from the Library of Things collection.

3. The Port Colborne Observer Newspaper

An article about the Touch-a-Truck book was featured in the March 13, 2025,

edition of the Port Colborne Observer. Staff from the Observer have invited the library to contribution a monthly "Librarian's Corner" column, which has been scheduled to start in April. Each month, the library's column will feature a different library collection, program, or service.

4. Touch-a-Truck Book Update

On Monday, March 3, 2025, Steph Vivier of Niagara in the Morning 610 CKTB interviewed library staff about the Touch-a-Truck book, the award, and the donation of books to local schools.

The Touch-a-Truck books were delivered to local elementary schools for their school library collections.

5. International Art & Found Day! March 12, 2025

International Art & Found Day is an annual event that takes place worldwide. Artists choose one or more artwork to drop off within their communities. Art is wrapped and clearly marked with the hashtag #ArtandFoundDay. An additional note is on the inside with information about the piece and the artist.

On March 12, 2025, the library promoted the event and was a participating location for Port Colborne's Art & Found Day where the community could pick up a piece of free artwork.

6. Donation

In March, the library received a donation of \$1,000. A letter of thanks will be sent on behalf of the Library Board.

7. Ontario Library and Information Technology Association (OLITA) Micro-Grant OLITA offers a Library Technology Micro-grant, which provides \$500.00 in funding to support Ontario libraries in enhancing their community's technology resources and services. This grant aims to help libraries adopt or improve technological tools that enhance accessibility, improve digital literacy, or provide innovative services to their communities.

On March 5, 2025, library staff applied for the OLITA Library Technology Micro-Grant for an in-library teen GamerSpace. Please see attached grant under correspondence.

8. Additional Bin Delivery

Starting April 1, 2025, a second weekly bin delivery to Port Colborne was added to the LiNC delivery schedule.

Previously, patrons could wait up to two weeks for their items, depending on order timing and location. With two deliveries per week, most requests will now be fulfilled within the same week.

This change is anticipated to balance staff workload. Previously, processing on Friday's single delivery took three to four hours. The additional delivery will be distributed throughout two days, reducing efforts on Fridays and the amount of shelving will be more evenly distributed throughout the week.

The cost to implement the second bin delivery is \$48 per week and will cost and will cost approximately \$2500 per year.

Port Colborne was one of the last to operate with a single weekly bin delivery, while other LiNC libraries had already transitioned to two. This update aligns our process with other LiNC libraries, improving efficiency and customer service.

9. Connectivity Grant

The annual Connectivity Grant from Ontario Library Service was deposited on Thursday, March 27, 2025 in the amount of \$9,600.00.

Rachel Tkachuk

Administrative Policy No:	FIN - 03
Policy:	TANGIBLE CAPITAL ASSET POLICY
Effective:	September 28, 2020 (NEW)
Revised:	
Current Legislation:	
Applicable to:	Capital Asset Transactions
Policy Owner:	Director of Corporate Services / Treasurer

Policy Statement

The Corporation of the City of Port Colborne (the "City") purchases tangible capital assets to support the operations of the City. This policy is intended to be complimentary to the City's Capital Asset Management Policy that is subject to Ontario Regulation 588/17.

The purpose of this Capital Asset Policy is to ensure the stewardship of the City's tangible capital assets and the corresponding accounting practices.

All tangible capital assets purchased by the City regardless of funding source or account are the property of the City unless expressed in writing otherwise. Tangible capital assets purchased must be for the benefit of the City.

1) <u>Delegated Authority</u>

Financial Services is responsible for the financial accounting of tangible capital assets. Tangible capital assets are to be accounted for in accordance with Canadian public sector accounting standards and this policy.

Departments purchasing tangible capital asset purchases must do so in accordance with the City's Purchasing Policy subject to budgetary approval.

Departments carry responsibility for certain record keeping responsibilities as outlined in this policy.

2) Record Keeping

The responsibility for maintaining capital asset records resides with the following departments:

Tangible capital asset	Department
Buildings	Public Works: Facilities
Furniture and fixtures	Public Works: Facilities
Information Technology	Corporate Services: Information Technology

Infrastructure [Linear (roads, water, wastewater, storm sewer) and Bridges and Culverts assets]	Public Works: Engineering
Land	Planning and Development: Planning
Land improvements	Public Works and Community Services
Machinery and equipment	Unit purchasing and maintaining the tangible capital asset
Vehicles	Public Works: Fleet
Works of Art	Museum and other departments as required
Library Assets	Library

The level of detail required to be maintained in a capital asset inventory is a balance between the cost of data collection, tracking and analysis and the beneficial use of the information gathered. At a minimum, the identified department with responsibility for maintaining the capital asset records are expected to maintain the following information:

- A capital asset continuity schedule identifying tangible capital assets in use at the beginning of the fiscal year, tangible capital assets purchased and disposed of during the year, and tangible capital assets in use at the end of the fiscal year
- The date of each capital asset purchase
- Projected date of replacement and forecasted replacement cost, if applicable
- The individual with carriage of the capital asset
- The location of the capital asset
- The date of disposal, proceeds on disposal and how the asset was disposed (e.g. redeployed, donated, sold, scrapped)

These records are to be filed with Financial Services tri-annually no later than the second Friday of January, May and September of each year.

3) Accounting at Acquisition

Tangible capital assets are recorded at cost. Cost includes all the directly attributable expenses other than interest costs and labour of City employees in the acquisition, construction, development and/or betterment of the asset required to install the asset at the location and in the condition necessary for its intended use. Contributed tangible capital assets are capitalized at their estimated fair market value at the date of contribution. Construction costs are capitalized at cost as work progresses.

4) Accounting for Capital Leases

A lease can result in a tangible capital asset when the contractual terms result in the transfer of substantially all the benefits and risks inherent in ownership of the property to the City. A corresponding liability will be setup to offset the tangible capital asset. The value will equal the present value of the minimum lease payments, excluding the portion

related to executory costs (costs relating to the operation of the leased tangible capital asset – e.g. insurance, maintenance costs and taxes).

5) Accounting for Pooled Tangible Capital Assets

Pooling is the combination of similar tangible capital assets within an asset classification. For the purpose of maintaining a general ledger amortization schedule, tangible capital assets other than building, infrastructure, land improvements, specifically identified machinery and equipment by a department and vehicles are pooled by classification type and by year for the purpose of creating a capital asset. Pooled assets are amortized and later removed from the general ledger amortization schedule once fully amortize unless notification of disposal is received prior to the pooled assets being fully amortized.

6) Accounting for Componentization

Building and infrastructure assets (roads, water, wastewater and storm sewer) are recorded on a componentized basis.

Category	Component
Building	Structure, Enclosure, Electrical, Mechanical, Fire Safety, Elevator, Finishes, Sitework and Other
Roads	Base (Paved), Surface (Paved), Gravel Roads, Sidewalks, Curb and Gutter, Guiderails, Street Lights, Traffic Signals, Road Signs
Water Distribution System	Mains, Hydrants, Water Chambers, Service Lines, Stations, Bulk Water Depot, Water Meters
Wastewater Network	Gravity Mains, Manholes, Pumping Station, Sewer Laterals
Storm Sewer Network	Mains, Chambers, Manhole, Inlets, Outlets, Storm Retention Ponds

7) Amortization

Amortization is a cost allocation method to recognize the purchase cost of tangible capital assets over the period of time that the tangible capital asset will be used. It is not intended to represent fair or market value of a capital asset.

Tangible capital assets purchased or constructed are amortized based on the date the asset is placed in service or the constructed asset being substantially completed.

Tangible capital assets are amortized on a straight-line basis (1/2 year recorded in year of purchase, construction or disposal) as identified in Schedule A.

8) Additional considerations

Subdivisions

Assets that meet the definition of Primary Services and Secondary Services of the Subdivision Agreement are effectively controlled by the City once the Plan of Subdivision is registered. These assets will be recorded by the City at the cost provided by the Developer's Consulting Engineer in the Completion Certificate(s).

Municipal Drains

Municipal drains will not be considered a land improvement and therefore will not be considered a tangible capital asset.

Works of Art

Works of Art for display in or on municipal buildings and property are not included as tangible capital assets. Works of art are held for exhibition, education and historical interest. They are deemed worth of preservation because of the social rather than financial benefits they provide to the community.

9) <u>Disposals of Tangible Capital Assets</u>

Those assigned with carriage of a tangible capital asset are responsible for communicating a request for disposition with the department responsible for the recording keeping once it has been determined that:

- There are no other potential users within the department with carriage of the tangible capital asset;
- Consultation has occurred with other departments that may also use the tangible capital asset and may want the tangible capital asset.

In the event a tangible capital asset cannot be redeployed the department responsible for record keeping will facilitate either a donation, sale or other form of disposal. The decision and process used for sale (e.g. trade-in, public auction, negotiation, etc.) must be made to maximize the benefit to the City.

The disposition of land, building and/or infrastructure requires Council approval. In the event such a disposition is to occur, Financial Services is to be notified.

Proceeds less any costs associated with the sale of a capital asset other than Fleet tradeins will be credited to a global capital asset account to support future tangible capital

budgets unless restricted by an external funding agency. Fleet trade-ins will be used to offset other fleet purchases.

A decision to donate or sell a capital asset to an employee (except if the tangible capital asset is purchased through a public auction or other means) requires the approval of the Director of Corporate Services / Treasurer.

If a tangible capital asset is purchased by an employee other than through a public auction or other public means and the proceeds are less than the fair market value, a taxable benefit will be assed to the employee. In this situation Human Resources will be notified to complete the necessary tax filings.

10) <u>Definitions</u>

Tangible Capital Asset: a tangible item and/or betterment to a tangible item used on a continuing basis with a useful life greater than one year. A tangible capital asset has an individual or pooled value greater than \$5,000 unless otherwise identified.

Betterment: subsequent expenditure on tangible capital assets that increase output or service capacity, lower associated operating costs, extend the useful life or improve the quality of the output.
